# The Affordable Tabbing Solution

Secap® 1012
Tab & Label Affixer

It Pays to Tab!

Economical and efficient, the Secap® 1012 Tabber automatically applies adhesive tabs and wafer seals to open-ended mail in accordance with postal regulations.

- **Fast** -- Applies tab/wafer seals at production speeds
- **Reliable** -- Consistent, accurate application. Rugged design and proven performance.
- **Versatile** -- Accepts roll or fan-folded label stock. Operates as a high speed pressure sensitive labeler, too.

Seal Open-Ended Mail At High Speeds Without The Cost Of In-Line Tabbing.

Preparing your mail with the Model 1012 is cost effective. This off-line system affixes tabs/wafer seals on open-ended mail to maintain your postage discounts. Consistently and accurately it seals tri-folded stock, double postcards, newsletters and booklets (up to 1/4" thick) at production speeds averaging 15,000 pieces per hour. The 1012 also doubles as a label affixer, applying pressure sensitive address labels up to 25,000 pieces per hour.

The 1012 sets up fast for a smooth operation. Switching between different applications is a snap! Quality engineered components assure uninterrupted performance and minimal downtime. Convenient and versatile, the 1012 is the preferred tabletop tabbing solution for postal automation compatibility.
